Suncoast Native Plant Society,
Inc., a Chapter of the Florida Native Plant So-
ciety, Inc.

Volume 22 Number 8

AUGUST 2005

August Meeting 24 7:00 pm

- - - Contributed by Harriett Wright

DIRECTIONS TO:

Hillsborough County Extension Ser-
vice, 5339 County Road 579, Seffner.

Take I-4 to Exit 10 (just east of I-75);
Go South for two blocks. Office is at
the corner of Old Hillsborough Road
and County Road 579.

President's Message

George Kish

HELP WANTED:

FLORIDA NATIVE PLANT LANDSCAPERS

Many of you might know that Suncoast Native Plant Society members helped plant a native garden at radio station WMNF. It was a "blooming" success and now volunteers are needed to make sure that the planting becomes established. Your help is essential!

The landscaping schedule (please see below) offers opportunities every other Saturday morning to promote Florida's native flora. Maintenance gardening begins at 9:00 AM. to about 11:00 AM. When you arrive at WMNF's studio, please begin weeding, trimming etc., and offer advice to less experienced volunteers (such as which plants to leave and which to remove). Also, you can bring extra garden trowels and/or buckets since not everyone will remember to bring tools. A sign-in sheet can be helpful to thank and contact people afterwards.

The WMNF's station is located a few blocks east of I-275 in Tampa at 1210 E. Martin Luther King Jr. Blvd. The schedule is flexible so if there is another time which is better for you or for more information please contact Carrie Core at (813) 238-8001x134 or carriec@WMNF.org

Landscaping Saturdays at 9:00 AM:
July 16 August 13 September 10
July 30 August 27 September 24

Incidentally, on July 2, Davida Johns and Tammy Harman helped SNPS member Mike Fite weed the native garden at WMNF.

PLANT PROFILE

- **Common name:** Spotted Bee balm; Horsemint
- **Botanical name:** *Monarda punctata* L.
- **Synonyms:** *Monarda punctata* var. *leucantha* Nash
- **Family:** Lamiaceae (mint family)
- **Zone:** 8-10A
- **Plant Habit:** Erect to spreading tap rooted annual or short-lived perennial, sometimes biennial
- **Habitat:** Sandy fields, disturbed areas
- **Size:** 1 ½-3 feet, occasionally to 4 feet
- **Leaves:** Opposite, oval to lance-shaped with toothed edges and a pleasantly pungent, oregano-like scent
- **Bloom:** White or pale pink flowers spotted purple on elongated spikes with conspicuous, leafy bracts, of white, pink or rose and blooming over a long period
- **Flowering time:** Late spring through early autumn
- **Distribution:** Pennsylvania south to Florida and Texas; also in California. It occurs nearly throughout Florida except the southernmost counties..
- **Growing conditions:** Well-drained soil
- **Light:** Light shade to full sun
- **Propagation:** Seed, cuttings, division of clumps
- **Motility:** Sometimes forms clumps by self-layering; occasionally self-sown
- **Maintenance:** Yearly pruning of older plants; removal of dead plants
- **Availability:** Generally available through native plant nurseries and FNPS chapter members
- **Comments:** The large colorful leafy bracts in consecutive whorls at the end of the branches surpass the smaller, less colorful, bilobed flowers and are the conspicuous part of the inflorescence. Oil from the leaves is high in thymol. Tea from the leaves was used by Native Americans for treatment of flu, colds, and stomach cramps.

Meets at Lettuce Lake Park off Fletcher west of I-75; 3:00 PM.

USF BOTANICAL GARDEN

974-2329. Volunteer orientation last Saturday morning of the month 10:00. Workshops require fee & registration.

JUL 30—Florida's Native Orchids

A Big Thank You

Thanks to those who contributed Raffle plants at the last meeting,

Remember, you get a free plant before the raffle begins when you donate plants for the raffle.

(Please sign the donor sheet so that we can acknowledge you in the Grapevine. Thanks.)

Plant Raffle Guidelines

By Harriett Wright

When you bring plants to the plant raffle, please sign the raffle donor sheet and record the number of plants you donated. Before the start of the raffle, we will offer first choice of a plant on the raffle table to our speaker, followed by plant donors in the order of the number of plants donated. After these selections have been made, we will begin the raffle.

Programs For 2005

By Harriett Wright

January 19, Brian Schatz: WMNF Project. A native plant demonstration garden for Tampa.

February 16, Warren Clark: History of Native Gardening in Florida.

March 16, Carl Weekley: Florida's Fire Ecology. The history of fire in Florida ecosystems, and the consequences of fire suppression, particularly in scrub and sandhill communities. How fire structures these pyrogenic communities, how a few endemic species respond to fire, and devices used at Archbold Biological Station to measure fire's intensity.

April 20, Mark Hostetler: Why the Hell Should I Mow My Lawn?: Thoughts, Issues, and Research on Developing Eco-Intelligent Communities

May 18, William Lorenzen: Tampa Bay Conservancy Project.

June 15, Pinellas Chapter: Landscaping and Gardening with Native Plants.

July 20, Dr. Gregory A. Jones: Birds, Bugs, Sunflowers, and Sustainable Farming; Joint meeting with Sierra and Audubon clubs.

August 17, Sid Taylor: Historical Commercial Exploitation of Pinus in The Land of Flowers. An expose of Naval Stores and turpentine Distillation.

September 21, George Kish: Native Grasses of Florida

October 19, John Tobe: Pitcherplants of Florida

November 16, Steve Farnsworth: Pseudonatives: Plants that are passed off as natives but aren't.

Florida Native Plant Society Membership Application

Membership in the Florida Native Plant Society enables you to receive their wonderful quarterly magazine The Palmetto. Joining the FNPS also entitles you to membership privileges in the Suncoast Native Plant Society, Inc. and a subscription to their monthly newsletter The Suncoast Grapevine. Contact the membership chair, George Kish at (813) 920-0853.
